Project Name	Garage Management System
Maximum Marks	2 Marks

### Problem Statements for Garage Management System (GMS)

---

#### 1. Inefficient Appointment Scheduling

**Problem:**

Manual appointment booking through phone calls or walk-ins leads to overlapping schedules, long wait times, and miscommunication.

**Implication:**

This causes customer dissatisfaction and under-utilization or overburdening of mechanics.

---

#### 2. Lack of Centralized Customer & Vehicle Records

**Problem:**

Customer and vehicle history is often stored in paper files or isolated spreadsheets, making it difficult to retrieve information quickly.

**Implication:**

This leads to repeated data entry, poor service tracking, and loss of valuable customer insights.

---

#### 3. Poor Mechanic Assignment Process

**Problem:**

Work allocation to mechanics is done manually without considering workload, specialization, or availability.

**Implication:**

This results in inefficient use of human resources and delays in service completion.

---

#### 4. Inaccurate or Delayed Invoicing

**Problem:**

Service billing is often prepared manually after job completion, leading to errors, missing charges, and time delays.

**Implication:**

This causes revenue leakage, accounting issues, and customer disputes.

---

**5. No Real-Time Service Updates**

**Problem:**

Customers are not informed about the current status of their vehicle, leading to uncertainty and repeated inquiries.

**Implication:**

Reduces customer satisfaction and increases load on support staff.

---

**6. Inventory Tracking Challenges**

**Problem:**

Spare parts inventory is not properly tracked, leading to unavailability of parts during service or overstocking.

**Implication:**

Delays repairs and increases operational costs.

---

**7. Lack of Data-Driven Decision Making**

**Problem:**

Garages lack structured reporting on performance, revenue, and resource usage.

**Implication:**

Business decisions are made without reliable metrics, affecting growth and profitability.

**Customer Problem Statement Template – Garage Management System**

<b>Problem Statement (PS)</b>	<b>I am (Customer)</b>	<b>I'm trying to...</b>	<b>But...</b>	<b>Because...</b>	<b>Which makes me feel...</b>
<b>PS-1</b>	<b>a car owner with limited free time</b>	<b>book a garage appointment quickly and easily</b>	<b>the process is manual and requires phone calls</b>	<b>there's no online booking or confirmation system</b>	<b>frustrated, anxious about delays</b>

<b>Problem Statement (PS)</b>	<b>I am (Customer)</b>	<b>I'm trying to...</b>	<b>But...</b>	<b>Because...</b>	<b>Which makes me feel...</b>
<b>PS-2</b>	<b>someone unfamiliar with car repairs</b>	<b>understand the status of my vehicle repair</b>	<b>I receive little to no updates from the garage</b>	<b>they don't offer real-time tracking or proactive communication</b>	<b>uninformed and unimportant</b>
<b>PS-3</b>	<b>a repeat customer</b>	<b>keep a record of my past services and bills</b>	<b>I have to ask or re-submit details every time</b>	<b>the garage doesn't store vehicle service history in one place</b>	<b>annoyed and undervalued</b>
<b>PS-4</b>	<b>a fleet manager</b>	<b>manage multiple vehicles and service requests</b>	<b>I can't track service schedules and vehicle status easily</b>	<b>the garage has no dashboard or centralized vehicle tracking system</b>	<b>overwhelmed and out of control</b>
<b>PS-5</b>	<b>a working professional</b>	<b>pick up my car without waiting in long queues</b>	<b>there's no time estimate or alert when service is done</b>	<b>I don't know when the repair is finished until I call</b>	<b>impatient and time-wasted</b>
